# Analyst, Associate and Vice President Compensation Survey 2014/15

Arkesden

## TRENDS FOR 2014 COMPENSATION

- In a well publicised move, the major Investment Banks in London have taken the lead from New York and increased the fixed compensation for junior bankers by about 20% from January 2015. This was implemented as a reaction to the high write down rate of Analysts in the U.S. to Corporate opportunities at the end of the two year Analyst programme.
- Year on year mean compensation has increased by about 10% from 2013 to 2014. The expectation is that the composition of next year's discretionary element will therefore be reduced by a significant range.
- The overwhelming response from bankers to compensation this year has again been positive, notably the new increase in the fixed element appeasing lower discretionary elements.

## METHODS & ACCURACY

- This survey was carried out using Arkesden Banking Associate and VP Networks with willing participants who will remain anonymous. Over four hundred respondents took part this year.
- The accuracy of the survey will be limited by the word of mouth of the participants; however, we have attempted to mitigate this by gaining as many data points as possible and confirming the accuracy of the data with the banks where possible.
- IBD Analyst compensation is expected to move in line with the Associate and VP's. We have included the recent changes to Analyst fixed compensation on page 3 for interest.
- We note that some of the banks in London paid very high one off bonuses to the very highest performing individuals. These 'super bonuses' were rare and the data was therefore not added to the High Bonus numbers as it would skew the mean High Bonus numbers that most other members of the years actually received.
- The Associate 0 and Associate 1 classes are grouped together to give an indicative Mean Compensation for the first 18 months of the Associate programme.

## ARKESDEN ENERGY

[www.arkesden.com/energy](http://www.arkesden.com/energy)

We are a leading search firm that focuses on placing individuals in to the Energy space. We are London based but we undertake mandates throughout Europe and wider CEEMEA. We have over a decade of experience executing mandates at the Director, Vice President, Associate and Analyst levels.

Arkesden Energy Practice has consistently delivered both for our clients and candidates since its inception. The team operates across numerous markets and our clients operate in the advisory and sell side space. Our advisory clients range from bulge bracket banks through the mid-market teams to boutiques. Whilst our investing clients include pension funds, sovereign wealth funds, infrastructure funds and sub sector focused funds.

Typical Sector Coverage:

- Oil and Gas
- Power & Utilities
- Infrastructure
- PPI/PFI
- Metals and Mining
- Renewable Energy
- Transport

## OUR APPROACH

During our history we have built a very wide ranging network of professionals within our five core markets. This has been built from real belief and understanding of the importance many people place on their careers. We always aim to offer sound medium term career advice. This approach has led us to be recommended many times to other professionals and clients alike to build fresh relationships.

## KEY TEAM CONTACTS
